

Irripod Single Pod Sprinkler

Installation and User Guide

Irripod single pod sprinkler is your complete portable irrigation solution

Features

- Irripod Single Pod Sprinkler is designed to operate off a standard 19mm garden hose or 20mm Polyethylene Pipe
- One Irripod Single Pod Sprinkler has a coverage area of 400sqm and an intensity rate of 2.6mm per hour
- The Single Pod Sprinkler is designed to operate at very low pressures (3 bar)

Irripod Single Pod Sprinkler is a versatile, strong, portable Sprinkler irrigation System

The single pod sprinkler is ideally suited to fit in small paddocks or irregular shaped areas where it is difficult to fit traditional irrigation systems.

Irripod Single Pod sprinklers are manufactured from commercial grade materials to ensure long life durability and value.

Installing Single Pod Sprinklers

Thread tape the end of the handle.

Screw on the Hansen Female Straight Coupler to the end of the handle.

Attach the handle to the Pod Skid with the 4 bolts and screws.

Insert the Hansen Hex Nipple into the Pod Skid Base. Then screw on the Hansen 20mm Female Socket.

Screw the 20mm sprinkler into the socket.

Attach the end of the Female Straight Coupler to the 25mm Polyethylene Pipe.

Locate the Pod cover onto Pod Skid base and push firmly down to engage grip lugs.

Secure top cover by screws around the base.

Fix wire clip into opposing holes on body sides. Screw wire clip holders into the holes provided.

Prior to commissioning the irrigation line it is recommended that the Single Pod Sprinkler be disconnected and the line flushed to remove any debris.
